The conference

ABTA's new Adventure Travel Conference will look at the trends and challenges associated with one of the fastest growing sectors in the travel industry.

Attend to hear the latest destination, traveller and product trends and stay one step ahead of your competitors. Explore how the travel industry can work together to sustainably safeguard and develop destinations and local communities. Discuss how to mitigate your business against specific risks facing the adventure travel sector including over-tourism, global political and economic risks and safety during adventure experiences.

The rise of experiential and adventure travel doesn't appear to be slowing. Customers continue to request more experience-led and immersive travel experiences, and an increase in consumer awareness around sustainability and responsible tourism has led to a demand for more meaningful travel experiences. They are seeking experiences that resonate with them on a personal level and to connect with local cultures in destination.

Travel companies must ensure that they are continuously innovating their product offering and marketing strategies to meet this demand alongside other key emerging adventure trends including health and wellbeing activities, solo travel and cruise expeditions.
